

Rebuilding the Global Economy

A series outlining policy priorities and solutions

Memorandum to:

The European Commissioner for Financial Services

**(Financial Stability, Financial Services
and Capital Markets Union)**

From: Nicolas Véron

Key priorities (international aspects):

1. Make progress happen on international oversight/supervision of critical global financial infrastructure or information providers
2. Streamline EU representation in global financial standard-setters and oversight bodies
3. Improve EU compliance with global financial standards
4. A more complete banking union and capital markets union will support greater international role of the euro
5. Establish effective Anti-Money Laundering supervision at the EU level
6. Don't wait for the US to lead!
